

WHIZ

Work smarter, safer and healthier.

Whiz is an **autonomous** robotic **vacuum cleaner** that collaborates with cleaning teams to create happier, healthier environments. Whiz handles vacuuming and efficiently removes dust, making your spaces safer and giving your staff more time for essential cleaning tasks.

Whiz provides users and managers with actionable analytics-based insights, thanks to its digital platform, **SoftBank Robotics Connect**. The platform allows you to monitor important data points, such as operational time and distance travelled.

Whiz simplifies cleaning, boosts staff productivity by saving time on repetitive tasks, and helps maintain cleaner spaces.

WHIZ FEATURES & BENEFITS

Use the power of data to improve cleaning performance

With SoftBank Robotics Connect, you can access Whiz data, enabling you to make informed decisions that can enhance overall cleaning operations and conditions for staff.

Cleans up to 15,000 square feet per charge

Enabling uninterrupted focus on critical tasks for your staff, saving time and resource.

Makes cleaning visible

Guests appreciate seeing Whiz, knowing it is helping to keep them safe and healthy. Whiz is a visual demonstration of your commitment to your guests' wellbeing.

Capable of memorising complex navigations

Whiz is powered by BrainOS®, the robotic industry's leading intelligent, self-driving technology and once taught is capable of navigating complex environments safely.

Swappable Battery

Eliminates downtime, ensuring uninterrupted service and productivity.

Reduces harmful particles

Whiz reduces harmful particles on average by 53%, improving occupant wellbeing.

WHIZ

Winner: 2019 ISSA Innovation Award

SoftBank Robotics can create **healthier** spaces and enhance **guest satisfaction** with automation and robotic solutions. By using Whiz you could benefit from improved employee productivity, reductions in staff absenteeism, reduced costs or more.

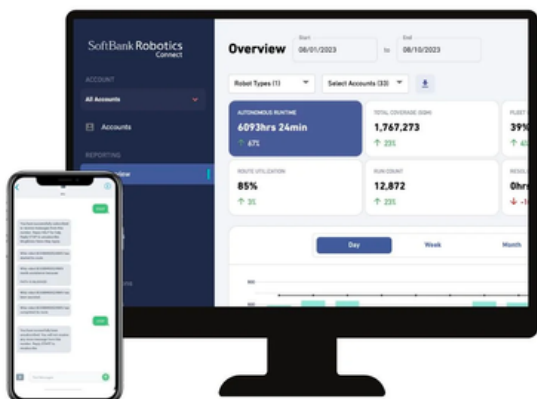

About Whiz: Your reliable solution

Whiz can help empower your business to:

- ▶ Deliver high quality cleaning.
- ▶ Save costs and increase satisfaction.
- ▶ Reduce labour costs and increase staff satisfaction.
- ▶ Reduce the impact of turnover and absenteeism.
- ▶ Enhance customer experience, by leaving staff with more time to focus on deep cleaning.
- ▶ Outpace your competition with cutting edge technology and attract new customers.

Product Size (WxLxH)	455 mm x 474 mm x 653 mm
Product Weight	35 kg (including battery)
Speed	1.8km/h max
Battery	Lithium ion; 23.7 Ah, 25.2V
Coverage*2	500m²/hour
Battery Life**	Approx 3 hours
Charging Time	4 hours
Battery Charger Capacity	100-240V AC

** battery life based on average operation on normal mode.
